

# J.L. BECKER COMPANY

QUALITY HEAT TREATING EQUIPMENT AND COMPONENTS

## J.L. BECKER GENERATOR CATALYST

for endothermic, exothermic, and ammonia dissociator generators

- \* high concentration of nickle
- \* 3/4" cubes for easy handling
- \* maximum surface area
- \* stock for immediate delivery

J.L. Becker catalyst cubes are manufactured of light weight, porous, high grade refractory. Generously concentrated in nickle (as nickle oxide) throughout, these 3/4" cubes provide longer life with maximum catalytic surface area. J.L. Becker catalyst cubes have been modified to achieve ultimate gas cracking efficiency and are packaged in 100# drums for an additional cost savings.
